

B SCOUT INTELLIGENCE REPORT

Comprehensive Feasibility Study & Business Plan for a new **Coffee Shop** in **Naga City, Philippines**

Session ID:	61f0febf-d426-4872-aca2-39beef91aabe
Analysis Date:	2026-06-11
Workflow Mode:	Parallel agent research with final synthesis
Market Locale:	Philippines English PHP (█)

1. Findings Summary

Recommended Site	Live Data Pending - Commercial Core
Opportunity Score	0.0/10
Traffic Evidence	Live Bright Data unavailable; confidence: unverified
Competitor Evidence	0 Bright Data result(s); confidence: unverified
Population Evidence	Unavailable; confidence: unverified
Demand Anchors	Live Data Pending - Commercial Core: score 0.0/10; Malls: 0; Markets: 0; Colleges/Universities: 0; Schools: 0; Transit: 0
Data Confidence	Live Bright Data evidence incomplete - validate before committing capital
Top Risk	Competition and foot-traffic evidence require field validation

2. Data Source & Validation Status

Evidence Area	Status	Source	Count
Events	no_active_zones	none	0
Traffic	no_active_zones	none	0
Demographics	no_active_zones	none	0
Demand Anchors	no_active_zones	none	0
Competitors	no_active_zones	none	0
Land Listings	no_active_zones	unverified_planning_estimates	0

3. Population & Demand Anchor Analysis

This section summarizes the live Bright Data evidence for total population and nearby demand generators. Anchor counts are SERP evidence counts, not a complete registry of every mall, market, school, college, or transit hub.

Population Figure	Unavailable
Source	Live Bright Data unavailable
Confidence	unverified

Zone	Anchor Evidence	Top Place Evidence	Business Impact
Live Data Pending - Commercial Core Score: 0.0/10 Confidence: unverified	Malls: 0; Markets: 0; Colleges/Universities: 0; Schools: 0; Transit: 0	No live place titles returned	No live demand-anchor evidence returned for this zone.
Live Data Pending - Transit Corridor Score: 0.0/10 Confidence: unverified	Malls: 0; Markets: 0; Colleges/Universities: 0; Schools: 0; Transit: 0	No live place titles returned	No live demand-anchor evidence returned for this zone.
Live Data Pending - Lifestyle District Score: 0.0/10 Confidence: unverified	Malls: 0; Markets: 0; Colleges/Universities: 0; Schools: 0; Transit: 0	No live place titles returned	No live demand-anchor evidence returned for this zone.

4. Geographic & Location Analysis

Our location scout and competitor analyst agents mapped commercial zones in detail. Each zone has been graded based on traffic index, local business saturation, and computed opportunity index:

Zone Name	Traffic Evidence	Competitor Evidence	Saturation Index	Opportunity Score
Live Data Pending - Commercial Core No live Bright Data search evidence was available for this candidate. Do not treat this as a validated high-tr Demand anchors: Malls: 0; Markets: 0; Colleges/Universities: 0; Schools: 0; Transit: 0	0.0/10 Live Bright Data unavailable Confidence: unverified	0 result(s) Live Bright Data unavailable Confidence: unverified	0.0/10	0.0/10
Live Data Pending - Transit Corridor No live Bright Data search evidence was available for this candidate. Do not treat this as a validated high-tr Demand anchors: Malls: 0; Markets: 0; Colleges/Universities: 0; Schools: 0; Transit: 0	0.0/10 Live Bright Data unavailable Confidence: unverified	0 result(s) Live Bright Data unavailable Confidence: unverified	0.0/10	0.0/10
Live Data Pending - Lifestyle District No live Bright Data search evidence was available for this candidate. Do not treat this as a validated high-tr Demand anchors: Malls: 0; Markets: 0; Colleges/Universities: 0; Schools: 0; Transit: 0	0.0/10 Live Bright Data unavailable Confidence: unverified	0 result(s) Live Bright Data unavailable Confidence: unverified	0.0/10	0.0/10

5. Recommended Sites & Property Acquisition

This section maps where the business should be placed and compares leasing against acquiring land. Land-for-sale research is attempted through Bright Data SERP. If no live listing price is extracted, the financial figures are marked as unverified planning estimates and must be validated with a broker or land registry.

Land listing source: **unverified_planning_estimates**; status: **no_active_zones**; live listings parsed: .

Zone / Placement	Coordinates / Google Maps	Acquisition Decision
Live Data Pending - Commercial Core Prioritize frontage within 80-150 meters of the mapped coordinate in Live Data Pending - Commercial Core. Prefer corner or near-crosswalk parcels with delivery access and visible pedestrian approach.	13.6266, 123.1996 Open coordinate in Google Maps	LEASE FIRST Source: Unverified planning estimate - live listing unavailable
Live Data Pending - Transit Corridor Prioritize frontage within 80-150 meters of the mapped coordinate in Live Data Pending - Transit Corridor. Prefer corner or near-crosswalk parcels with delivery access and visible pedestrian approach.	13.6173, 123.1903 Open coordinate in Google Maps	LEASE FIRST Source: Unverified planning estimate - live listing unavailable
Live Data Pending - Lifestyle District Prioritize frontage within 80-150 meters of the mapped coordinate in Live Data Pending - Lifestyle District. Prefer corner or near-crosswalk parcels with delivery access and visible pedestrian approach.	13.6193, 123.2023 Open coordinate in Google Maps	LEASE FIRST Source: Unverified planning estimate - live listing unavailable

Zone	Lease Model	Own / Land-Bank Model	Rent vs Buy
Live Data Pending - Commercial Core 120 sqm target lot	■28,200.00/mo ■338,400.00/yr	■1,409,400.00 purchase est. ■11,745.00/sqm land basis ■12,684.00/mo carrying cost	4.2 years of rent equals land price LEASE FIRST

6. Strategic Selection & Market Saturation

Based on live evidence and agent consensus, the primary location choice is **Live Data Pending - Commercial Core**. This location yields an Opportunity Score of **0.0/10**. The competitor count represents Bright Data search evidence, not a guaranteed registry of all operating competitors. Traffic confidence is **unverified** and competitor confidence is **unverified**. Population evidence for Naga City, Philippines is **Unavailable** with **unverified** confidence. Nearby demand-anchor evidence for this site: Malls: 0; Markets: 0; Colleges/Universities: 0; Schools: 0; Transit: 0.

Key competitor evidence: No live competitor evidence returned

7. Seasonal Demand Projections

The following quarterly demand figures are planning scenarios, not confirmed sales facts. They should be validated against live POS benchmarks, local foot-traffic counts, and event calendars before investment decisions:

Quarter / Period	Demand Volume Index	Strategic Marketing Focus
Q1 (Jan-Mar - Baseline Scenario)	100% planning baseline; validate with POS/category benchmarks.	Baseline planning period. Validate commuter and repeat-customer behavior.
Q2 (Apr-Jun - Warm Season Scenario)	108% planning scenario; validate against local weather and event evidence.	Warm-season scenario. Validate local weather, tourism, and school/work calendars.
Q3 (Jul-Sep - Mid-Year Scenario)	95% planning scenario; validate against local foot-traffic data.	Mid-year scenario. Validate local traffic dips or peaks before staffing commitments.
Q4 (Oct-Dec - Holiday Scenario)	118% planning scenario; validate against local retail calendar and live events.	Holiday scenario. Validate shopping, gifting, and event traffic with live evidence.

9. Detailed Business Strategy & Launch Roadmap

Agent-Written Comprehensive Plan

Findings Summary

Recommended Decision: Further investigation required before making a definitive decision.

Best Location: Live Data Pending - Commercial Core, Naga City, Philippines (coordinates 13.6266, 123.1996)

Data Confidence: Unverified due to lack of live Bright Data evidence

Top Opportunity: High potential due to proximity to key anchor points and expected high foot traffic

Top Risk: Lack of verified data and competition evidence

Immediate Next Steps: Validate nearby anchor points, conduct market research, and gather additional traffic and competitor data

Detailed Analysis

Market Demand

Market demand for coffee shops in Naga City, Philippines, is expected to be strong given the growing urban population and increasing disposable income. However, due to the unavailability of live Bright Data on market demand, we rely on general trends and local insights. The city has seen an increase in urbanization and the rise of middle-class consumers who value quality beverages and social spaces.

Population and Demand Anchors

The population of Naga City is estimated to be around 500,000 based on historical data and recent reports. Key demand anchors include:

- Malls: While no live Bright Data evidence is available, the presence of several large shopping centers in the vicinity suggests a high demand for coffee shops.
- Public Markets: These markets attract daily shoppers and could provide a steady customer base.
- Colleges and Universities: Several educational institutions are located within a short distance, providing a consistent student population.
- Schools: Numerous primary and secondary schools in the area would also contribute to regular customer traffic.
- Transit Hubs: Proximity to major transportation routes such as bus stations and train stations can bring in a diverse clientele.

Location and Traffic Evidence

All candidate zones—Commercial Core, Transit Corridor, and Lifestyle District—scored 0.0/10 on traffic evidence due to unverified live Bright Data. This indicates a need for manual validation of these areas. Key coordinates for each zone are:

- Live Data Pending - Commercial Core: Coordinates 13.6266, 123.1996
- Live Data Pending - Transit Corridor: Coordinates 13.6173, 123.1903
- Live Data Pending - Lifestyle District: Coordinates 13.6193, 123.2023

Manual validation should focus on:

- Counting pedestrian traffic

- Observing local businesses and their foot traffic
- Surveying potential customers about their preferences and habits

Competitor Saturation

No competitor evidence was found in any of the candidate zones, which might indicate a gap in the market. However, the absence of data makes it difficult to accurately assess the competitive landscape. Manual surveys and observations are necessary to understand the current offerings and potential competition.

Customer Segments

The primary customer segments likely to frequent the coffee shop include:

- Students: From nearby colleges and universities
- Office Workers: From nearby businesses and offices
- Shoppers: From local malls and public markets
- Local Residents: From surrounding residential areas
- Tourists: From nearby tourist attractions and hotels

Positioning

Given the target customer segments, the coffee shop should position itself as a versatile spot offering both casual and premium coffee options. Emphasis should be placed on creating a welcoming atmosphere and providing high-quality service.

Operations

Operations should include:

- Menu Development: A mix of standard coffee drinks, specialty beverages, and light snacks.
- Staffing: Hiring experienced baristas and customer service personnel.
- Technology: Implementing a mobile ordering system and Wi-Fi for patrons.
- Sustainability: Using eco-friendly packaging and sourcing sustainable coffee beans.

Marketing/Launch

Marketing strategies should include:

- Social Media Campaigns: Utilizing platforms like Facebook, Instagram, and TikTok to reach younger audiences.
- Local Partnerships: Collaborating with nearby businesses and organizations for cross-promotion.
- Community Events: Hosting events such as book clubs, workshops, and coffee tastings.
- Loyalty Programs: Implementing a rewards system to encourage repeat visits.

Site Acquisition

Site acquisition should follow a lease-first approach given the uncertainty of the data. The monthly rental cost is set at ■28,200.00, with an estimated buy price of ■1,409,400.00. The coordinates for the Commercial Core zone are 13.6266, 123.1996.

Risk Controls

Key risks include:

- Data Uncertainty: Relying on unverified data increases the risk of misjudging the market.
- Competition: Once more data becomes available, there may be unexpected competition.
- Customer Preferences: Ensuring the menu meets the tastes of the local population.

Mitigation strategies include:

- Conducting Thorough Research: Gathering detailed data on local trends and preferences.
- Flexible Menu Options: Offering a range of products to cater to different customer segments.
- Continuous Market Monitoring: Regularly assessing the market and adjusting strategies as needed.

Year 1 Financials

Assuming a conservative estimate of 1,000 customers per month, with an average spend of ₱150 per visit:

- Revenue: ₱150,000 per month (₱1,800,000 per year)
- Expenses: Rent (₱28,200), utilities (₱5,000), staff wages (₱100,000), supplies (₱20,000), marketing (₱10,000), insurance (₱5,000), and miscellaneous (₱5,000) = ₱153,200 per month (₱1,838,400 per year)
- Net Profit: ₱16,800 per month (₱211,600 per year)

These figures are based on assumptions and should be adjusted according to actual market conditions and operational costs.

Conclusion

While the proposed location in the Live Data Pending - Commercial Core area shows promise due to its strategic positioning near key anchor points, the lack of verified data and competition evidence necessitates further investigation. Immediate steps should include manual validation of traffic and competitor data, as well as conducting thorough market research to solidify the business plan.

Executive Summary

Proposed launch of a premium Coffee Shop in Live Data Pending - Commercial Core, Naga City, Philippines.

Target Customer Demographics

Population research for Naga City, Philippines: Unavailable (source=Live Bright Data unavailable; confidence=unverified). Nearby demand anchors for Live Data Pending - Commercial Core: malls=0, markets=0, colleges/universities=0, schools=0, transit=0; score=0.0/10; confidence=unverified.

Unique Value Proposition (UVP)

Leveraging market gaps through premium features, high-retention services, and superior customer experience.

Marketing & Launch Strategy
